

# How to Communicate with IUSD?

Irvine Unified School District (IUSD) values open and transparent communication with our families and wants parents/guardians to take an active role in their child's education through engaging conversations. These communication guidelines will help you get answers to your questions or concerns in a timely manner.

## One Step at a Time Until Your Question/Concern is Resolved

## Communicating with IUSD is Easy!

### TIP 1

With timely respectful communication, most parent questions/concerns are resolved at the school level typically starting with Step 1 and moving up as needed.

### TIP 2

For all non-emergencies, parents/guardians should expect a call or email within two working business days to acknowledge that the school is aware of the issue and is working on a resolution. Please allow a reasonable amount of time for staff to return your call/email. While many issues may be resolved in 48 working hours, depending on the nature of the concern or question, it may take longer for a full resolution.

### TIP 3

When describing your concern, please include all of the details (who, what, where, when), how your child has been affected, as well as the outcome or solution you hope to achieve.

# IUSD Contacts

Most parent questions/concerns are resolved at the school level by speaking with the teacher, school secretary, school counselor and/or the school principal. If questions/concerns remain, parents/guardians are welcome to reach out to district departments or board of education.

# The Board of Education

The Irvine Unified School District Board of Education is a five member Board, elected from the school district at large, serving four year terms. Annually, student representatives are selected from each high school to form the Student Advisory Board, and five student members at a time participate in the Board Meeting process. The Board meets once to twice monthly. Meetings are televised in an effort to keep the community well informed on school district programs, budget, and direction. For more info on Board Meetings or submitting public comments [click here](#).

The role of the Board is to serve as a policy-making body for the school district. Among the Board's numerous duties is the adoption of the annual budget; approval of expenditures; employment of personnel; approval of the curriculum, textbooks, and courses of study; approval of facility plans and construction contracts. Action can only be taken when the Board is meeting in formal session with a majority of its members present.
